AND still they bolt. See list of prominent papers who have bolted the Bryan-Sewall combination.

HON. CHAS. R. LONG, former Chairman of the Democratic State Central Committee, says he will not support the Chicago ticket.

The scramble is now going on at St. Louis among the Populists, and the question that is agitating their minds is whether they will endorse Bryan or nominate a ticket of their own. It seems that they will have a bolt, it makes no difference what the majority does.

The Ohio county Populists last Saturday instructed for Bryan and rejected Sewall. It was the prevailing opinion among them that the Populist could not afford to accept Sewall, but wanted him pulled off by the committee and a straightout Populist nominated in his stead.

For the first time in the country's history a great political party assembled in National Convention has denounced itself, adopted a financial policy, pursued only by half civilized nations and surrendered its leadership into the hands of a "Boy Orator."

It such methods receive the support of the American people then the period of the Republic is approaching.

Four years ago the Democratic party appealed to the people for the privilege of relieving them from the oppression of "Robber Barons" manufacturers and bringing about a period of unparalleled good times. Democracy was invested with the power to fulfill these promises, and what followed? Such calamities as had never before followed the advent of any party to power, and let us trust God will never be witnessed by the American people again. Yet this same party, or rather this same element, for Democracy has degenerated into Populism, pure and simple, is preaching a gospel of cheap currency and seeking another lease of power from an outraged and suffering people. Will the sober, sensible American voter trust his government in the hands of a party of such a record?

### HENRY M. TELLER.

This man has achieved an unequaled notoriety. His name for the last month has been prominently before the American people.

The attitude in which he has placed himself does not reflect any credit on him at all. He has been held up as a martyr to the silver cause, which is said to be nearer and dearer to his heart than all others. It is significant however, that simultaneously with his withdrawal from the Republican party, his "friends" began to boom him for the Democratic nomination for President. It is true the Democratic party is for free silver. It is also for free trade. Mr. Teller as a Democratic nominee would have been forced to sacrifice his faith in the Republican idea of protection of which he has always been a standard defender.

It seems that he was willing to this. The idea that he is a man of firm convictions, who would not give up his principles, is therefore erroneous.

Mr. Teller appears merely as a scheming politician devoid of honor and having no sense of shame. He has deserted the party that has honored him time and again and has allied himself with anarchists, Populists, and the worst element of the Democratic party, the best elements of which are, and always have been, bad enough. Mr. Teller wants to be President, but by his efforts to be such he has made himself obnoxious to all true American citizens. It is said that Benedict Arnold who betrayed his country for British gold, died despised by the men to whom he sold his honor. He was known as Arnold the traitor, and he died unwept, unhonored and unused.

Henry M. Teller is the Benedict Arnold of the Republican party. He has forfeited his right to the respect and confidence of Republicans, and merits and has won the contempt of Democrats. He is Teller the traitor.

ILLINOIS Democrats are clamoring for another ticket. They say the Chicago ticket cannot be pushed down their throats as Democratic.

The meanest, most contemptible and most cowardly outrage ever perpetrated upon any political party was that of the Chicago Convention, taking forcible possession of Populism, without throwing so much as a crumb to its leaders, Waite, Altgeld, Debs & Co., had spent years of unremitting toil in creating among the Western people a spirit of distrust and anarchy and just when they were preparing to register the strength of their following, Democracy, dishonored abroad, disgraced and abandoned at home, builds its fortune on the foundation these men have laid and leaves their leaders without a following and politicians without a party. Dick Turpin himself would have blushed at such a shameful steal.

### What it Means.

The Chicago Times-Herald says:

The nomination of William Jennings Bryan as the Democratic candidate for President of the United States means that there is a scattered, not numerous, but resolute party in this country in favor of:

Extinction of the right of private contract.

Compulsion of the people of the United States to take sixteen pounds of silver as the equivalent to one pound of gold when in the markets of the world one pound of gold is worth thirty pounds of silver.

Revival of the income tax.

Legislation so to alter the Supreme Court of the United States as to make it Populist.

Voluntary bankruptcy of the National Government.

Involuntary bankruptcy of all business men of the United States who are not Vanderbilts and Astors, capable of resisting or surviving the inevitable panic when the National monetary standard slumped from gold to silver.

### NOTE.

Rev. Robert Oldham preached his last sermon as pastor of Pleasant Grove Church on Sunday the 12th. He has resigned his pastorate of the church and carries with him the good will and commendation of the church and community. His pastorate has been long and successful and has marked an epoch of good feeling and harmony in the church.

Rev. Craig has been conducting a protracted meeting at Pleasant Walk school house.

Mrs. L. D. DeWeese and Mrs. Florence Schroeder were the guests of Aunt Lou White on the 12th, the event being her seventy-fourth birthday. She is in good health and is remarkably strong and promises to reach her four score and ten. She was never married.

Mrs. Lizzie Truman, of Owensboro, has been visiting relatives and friends here for the past two weeks. Mrs. Truman formerly lived here and her advent was welcome.

P. A. Moxley and D. W. Godsey have purchased the timber on the Thomas Phillips farm and will run it to Evansville this winter.

Mr. Wm. Earley, formerly of this place, was shot and killed in the fork of Rough by one Carmil on the 13th and was buried on the 14th at the Roach burying grounds. From what has been learned the killing was entirely unprovoked and was nothing less than a brutal murder.

John Lillard and family, of Cloverport, have been visiting Taylor Murphy and family for the past week.

### Wants His Free Silver.

Effectual—Charles J. Booth, Olive-wood, Cal., says: "I have used Ayer's Pills in my family for several years, and have always found them most effectual in the relief of ailments arising from a disordered stomach, torpid liver, and constipated bowels."

Sound Money Democrats.

The sound money Democrats throughout the country are highly displeased at the action of the Chicago convention and now talk of nominating candidates for President and Vice President. We do not believe, however, that they will name a ticket,

et, notwithstanding the urgent demand in some sections. The eastern sound money Democrats are keeping quiet as they yet control the organization in the various states, and by taking such action would run the risk of losing out. The western sound money Democrats are already out and pushing the sound money candidate idea. Such nomination would doubtless injure McKinley's chances but he has such a commanding lead over the others that he can win anyway.

### McKinley to the People

Addressing a delegation of the Foraker Club at Canton, O., on July 11, Hon. William McKinley said:

"Our difficulty now is to set our money in circulation and invest it in productive enterprises, which furnish employment to American labor. This is impossible with the distrust that hangs over the country at the present time, and every effort to make our dollars, or any one of them, worth less than one hundred cents each only serves to increase that distrust."

What we want is a sound policy, financial and industrial, which will give courage and confidence to all, for when that is done the money now unemployed because of fear for the future and lack of confidence in investment, will appear in the channels of trade.

"Gentlemen, the employment of our idle money—the idle money we already have—in gainful pursuits will put every idle man in the country at work, and where there is work there is wages, and when there is work wage earners are consumers, who constitute the best market for the products of our soil."

"Having destroyed business and confidence by a Free Trade policy, it is now proposed to make things still worse by entering upon an era of depreciated currency. Not content with the inauguration of a ruinous policy, which has brought down the wages of the laborers and the prices of farm products, its advocates now offer a new policy, which will diminish the value of money in which wages and products are paid. Against both of these we stand opposed. Our creed embraces an honest dollar, an untarnished national credit, advocates revenue for the use of Government. Protection to labor, preservation of the home market and a reciprocity which will extend to our foreign markets."

"Upon this platform we stand and submit its declaration to the sober and considerate judgment of the American people."

### Chapter on Money Making.

A correspondent of the New York Sun very cleverly says:

If a man takes a piece of steel worth 15 cents and makes it into watch springs worth \$100, that is skill.

If he takes a piece of paper worth 2 cents and writes on it a poem that sells for \$50, that is genius.

If he takes a farm worth \$5 an acre and by his labor and knowledge puts it in heart again and makes it worth \$50 an acre, that is work.

If a man takes a hammer worth 60 cents an in a day's use of it earns \$1.35, that's hard work.

If a man buys a yearling at a trotting sale for \$15 that in 3 years form develops ability to make a mile at 2:06 1/4 gait, that is judgment.

If a man buys a silver mine he has never seen and it makes him a millionaire, that's luck.

If a man buys an article to-day for \$5 and sells it to-morrow for \$3.69 that's business.

But when a government takes 53 cents worth of silver and coins it into a cartwheel, and says legislators that it is too cents, or a dollar, and pays it out as such to its creditors, that is not finance, but highway robbery.

### A Question of Policy.

The true policy of sound money Democrats is to crush, beyond all power or hope of resurrection, the Populist combination, which has gained ascendancy in their party. By doing so they will regain control of affairs if they preserve their State organizations in their own hands. To do so effectually, the better way is to co-operate with the Republicans and elect McKinley by a majority so immense and pronounced that anarchists and free silver fanatics will be not only defeated, but demoralized. Another ticket will divide the sound money forces and place sound money Democrats at a disadvantage in regaining control of their party. To put it in the field, State and county conventions would have to be called to appoint delegates to another National Convention. The ticket nominated could not be called Democratic, for there is already a Democratic ticket regularly appointed. The new ticket would have to be named for another party, which would cause embarrassment, and its supporters would practically be acting outside the Democratic party. By still holding to their party and helping Repudiate the pirates and mutineers overboard who have captured their ship, the careful and capable navigators can again take command and run the craft upon safer waters.

Secretary Morton, in an interview, makes a very strong point. He says, it instead of bolting the Charleston convention the Douglas Democrats had voted for Lincoln, the South never would have seceded. A union of all the men in 1860 who believe in the Union would have given Lincoln such an overwhelming majority that it would have demonstrated not only the folly, but the fate, of secession. This lesson from the past is worthy of consideration.

Women who are weak and nervous, who have no appetite and cannot sleep, find strength and vigor in Hood's Sarsaparilla.

## Cripple

The iron grasp of scrofula has no mercy upon its victims. This demon of the blood is often not satisfied with causing dreadful sores, but racks the body with the pains of rheumatism until Hood's Sarsaparilla cures.

"Nearly four years ago I became afflicted with scrofula and rheumatism. Running sores broke out on my thighs. Pieces of bone came out and an operation was contemplated. I had rheumatism in my legs, drawn up out of shape. I lost appetite, could not sleep. I was a perfect wreck. I could not walk and finally gave up the doctor's treatment to take Hood's Sarsaparilla. Soon appetite came back; the sores commenced to heal. My limbs straightened out and I threw away my crutches. I am now stout and hearty and am farming, whereas four years ago I was a cripple. I gladly recommend Hood's Sarsaparilla to URBAN HAMMOND, Table Grove, Illinois.

### GERMAN-AMERICANS.

They Are Almost Unanimous for Sound Money.

Mr. Gustav H. Schwab is president of the German society of New York city and is therefore in touch with Germans and German-Americans in this country. Being also a prominent business man, he is familiar with the views of Germans on the financial question. In an interview on May 14 he said:

I am convinced from my knowledge of the German-American fellow citizens and their way of thinking that the vast majority of them in the coming political contest will entirely disregard party ties and will vote for that party which declares for the maintenance, beyond a possibility of doubt, of the gold standard of value, and that they will not give their suffrage to any candidate who may be suspected of a leaning toward free silver coinage or toward any compromise with the silver people.

They consider that the paramount question before the country at present is the integrity of our monetary system, and their votes will go to that party which they believe will uphold the country's financial honor, regardless of what their views may be on other political questions. Previous experience has shown that German voters on questions relating to or affecting the standard of value have always stood for common honesty, and that they have uniformly opposed all forms of financial heresy.

When, 20 years ago, the paper money inflation question was agitated in Missouri, the Germans of that state were arrayed on the side of sound money. The Germans of Illinois are on record as always having been on the right side of the money question, and as never having been led astray by cheap money propaganda at any time. A German business man, who has never yet found one who was not in favor of the gold standard and opposed to the free coinage of silver.

His opinion is that the German citizens of Illinois are unanimously opposed to any impairment of the present gold standard.

It is a fact, universally known, that the sound-money victory in Ohio in the gubernatorial campaign of 1875, in which Rutherford B. Hayes ran on a republican hard-money platform against William Allen, on a democratic paper-money inflation platform, was due to the firm stand taken by the Germans, who, disregarding party lines, turned the scale in the election in favor of honest money. This fact was conceded at the time by the republican press of the state, and the democratic candidate voiced the sentiments of his party leaders when he gave utterance to his lacerated feelings after the election by exclaiming: "The Dutch are a—d—d unreliable." The German voters are certainly not to be relied upon when they are asked to prostitute the country's financial honor at their party's bidding. In the state of Wisconsin the Germans have taken the same united stand in favor of sound money, and the same may be said of Michigan, Iowa and Minnesota.

The entire German newspaper press in this country, with few exceptions, is emphatically for sound money, as it has been in the past, and can be depended upon to pronounce in favor of the maintenance of the present standard of value, and for the party that represents this principle, regardless of previous party affiliations. Several important German democratic papers in the western states have already threatened to bolt their ticket if a free silver plank should be adopted. As an indication of the general sentiment of the German press I refer to the position taken by the largest and oldest German newspaper in the south, the Democrat, of Louisville, in the last state election in Kentucky. Although always democratic up to that time, this paper bolted the democratic free silver candidate and urged the election of the republican sound money candidate for governor.

The importance of the German vote will be apparent when the numerical strength of the German-American population in the pivotal states is considered. The returns of the census of 1890 show that the state of New York then contained 972,603 German-Americans, Ohio, 341,407; Illinois, 690,581; Pennsylvania, 475,423; Michigan, 278,231; Wisconsin, 231,334; Minnesota, 214,914; Iowa, 200,603; and Missouri, 207,095.

Whatever may be the decision of the national conventions on the money question, this issue will be fairly, squarely and most thoroughly placed before the German voter in the course of the campaign, and as to the nature of his response I do not entertain the slightest doubt.

### Simple Question for Silver Leaders.

Who would be benefited by adulteration of the currency? Not the farmers. They could not be better off if they got two 50-cent dollars where they get now one 100-cent dollar, and that is the utmost Tillman would be able to give them. But the fearful contraction of the currency caused by a collapse of standard money to the 50-cent cheap silver standard would create such hard times that for years workingmen would get hardly more 50-cent dollars than they get now 100-cent dollars. How would that benefit them? Neither Altgeld nor Tillman has ever explained this simple question.—Chicago Tribune.

## Reputate It.

The following well-known Democratic journals repudiate the Democratic candidate and platform selected at Chicago:

Boston, Mass.—Globe, Herald.

Buffalo, N. Y.—Courier, Inquirer.

Brooklyn, N. Y.—Eagle.

Bennington, Vt.—Reformer.

This is rather significant and means much. With such organs as these and solid Republican vote the election of McKinley is assured. The list of repudiators will continue growing until all the ballots have been cast into the political urn next November.

### Populist Convention.

A large number of Populists met in convention at the Court House last Saturday for the purpose of selecting delegates to their State Convention, which met in Paducah last Monday.

The meeting was called to order by County Chairman J. P. Miller, who stated the object of the meeting.

Judge Ben Newton was elected Chairman and A. S. Worsey secretary.

A committee was appointed on resolutions and while waiting for the committee to report Mr. Johnson, of Meade county, made a speech. After the committee reported the meeting adjourned.

"Have tried others, but like Ayer's best" is the statement made over and over again by those who testify to the benefit derived from the use of Ayer's Sarsaparilla. Disease never had a greater enemy than this powerful blood-purifier. It makes the weak strong.

### Your Duty.

It is the duty of every Republican in Ohio county and the 4th Congressional District to subscribe for and help support THE HARTFORD REPUBLICAN. When the paper was first established the county was hopelessly Democratic and by the help of THE REPUBLICAN the party has been more solidly united and to day Ohio county stands among the Republican counties of the State. The 4th District has always been Democratic until 1894 when it was turned into the Republican column. THE REPUBLICAN does not claim all the honors for these changes for the better, but does insist that it has been a leading factor in making these great changes, hence it is the duty of the Republican party to stand firm for their organ in both the District and county. THE REPUBLICAN is almost alone in battling for Republican principles in the District in the newspaper line, while there is about fifteen Democratic papers.

Let every Republican turn out and see how many good cash subscribers they can get for the paper and let others remember if they are behind on their subscription, to come forward and pay up without delay.

### Let nobody remain at home during the Temperance Camp Meeting, but "fork up" and go to Sulphur Springs.

Louisiana has decided to make January 16, General Robert E. Lee's birthday, a public holiday. The idea of observing a special day in commemoration or memento of the Southern Confederacy was proposed only a few years ago, but it has met with universal favor through the South. A convention of Confederate veterans suggested June 3 as a proper holiday, it being the birthday of "President" Jefferson Davis, the head and front of "the lost cause." But the people seem to take a different view of the matter, and to have selected a different hero. Only one State, Florida, has accepted the suggestion of the veterans and made June 3 "Confederate Day" while Louisiana is the fifth to select Lee's birthday instead; and this selection is the more marked because Jefferson Davis was well known in New Orleans, was a frequent resident here, and his permanent home, Renzoir, is practically a suburb of the city. Louisiana's action has probably settled the matter, and "Confederate Day" will commemorate Lee instead of Davis as the ideal Southern hero.—[From Harper's Weekly.
